

ELIMINATE KNOWLEDGE SILOS WITH AN INTEGRATED CLOUD- BASED CMMS AND EDMS

Fragmented data is the productivity killer lurking in your organization. Every minute spent searching for the right document is a minute lost on critical maintenance tasks. Every outdated engineering document used risks costly errors and safety hazards.

THE IMPACT OF KNOWLEDGE SILOS:

20%

OF AN EMPLOYEE'S TIME IS
WASTED FINDING INFORMATION¹

46%

SAY DISCONNECTED DATA
HINDERS SERVING CUSTOMERS²

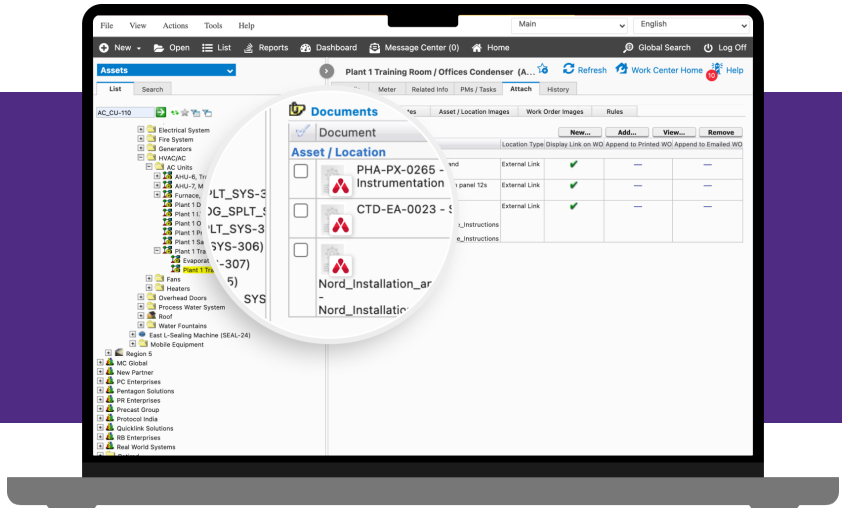

¹McKinsey & Co

²Snaplogic

With the RedEye and Maintenance Connection integration, you can eliminate information silos, seamlessly connecting engineering documents within your maintenance solution. No more frantic searches. No more second-guessing document versions. Your teams gain instant access to accurate information exactly where they need it. The result? Reduced downtime, enhanced safety and streamline operations, unlocking your organization's full potential for efficiency and innovation.

MAINTENANCE CONNECTION + REDEYE

Enhance your asset maintenance and management, boost operational efficiency and worker safety, and extend the lifespan of assets with Accruent's integrated CMMS and EDMS.

STREAMLINED OPERATIONS

- Auto-assign documents to work orders and assets
- Reduce manual effort and document search time
- Maintain accuracy with live version updates
- Minimize errors through unified information access

ENHANCED ASSET LIFECYCLE MANAGEMENT

- Real-time access to current engineering records
- Informed maintenance decisions at every stage
- Optimized asset performance and longevity
- Preserve governance through controlled workflows

COMPREHENSIVE DOCUMENT MANAGEMENT

- View documents in multiple formats (CAD, PDF, Forge, Office365, etc.)
- Access RedEye documents from any device
- Lock document versions on completed work orders for historical auditing
- Verify document version at the scan of a QR code

IMPROVED COMMUNICATION AND COLLABORATION

- Accelerate field feedback with drawing annotations
- Collaborate in real-time with access for all users
- Seamless information sharing across teams
- Enhance decision-making with up-to-date, accessible data
