

# NEW CMMS MOBILE APP SIMPLIFIES MAINTENANCE AND OPERATIONS

## WHY MC KINETIC?

The MC Kinetic offline, native mobile CMMS application empowers maintenance teams to execute preventive maintenance, optimize maintenance operations, and utilize their data using one connected, centralized tool - no connectivity concerns, no efficiency losses, and no difficulty locating assets or parts.

This is accomplished using features – like offline functionality, geo-location mapping, automated notifications, and device-agnostic capabilities – that enable anytime, anywhere asset management.

## EVERYTHING YOU NEED WITH

**Offline capabilities, Geo-location mapping, Simplified inventory and parts management**

### FEATURES

- Cached workbenches and lists
- Comprehensive work order management
- Automated notifications
- Native mobile application for iOS/Android

### BENEFITS

- Maximize efficiency internally and across sites
- Enjoy anywhere, anytime connectivity
- Eliminate silos between departments and teams
- Empower technicians to execute work orders remotely
- Avoid connectivity loss
- Increase CMMS adoption
