

5 BEST PRACTICES FOR LEASE ADMINISTRATION in healthcare

01 AUDIT LEASES

Assess your current lease portfolio to understand essential data points, from leased space to complex terms like negotiation rights.

02 STAY ACCURATE

Focus on data integrity and standardization procedures to ensure compliance and the most accurate data at all times.

03 CENTRALIZE DATA

Say goodbye to numerous spreadsheets and documents and instead, track all lease data in one place to streamline efficiency.

04 USE REPORTS

Gain insight into key data points, including expenses, fair market value and usable space.

05 GET A SEAT

Leverage reporting to get a seat at the table, turning your lease portfolio into a strategic driver of success.
