EMS

Outlook

5 Things EMS Can Do That Outlook Can't

1. Simplify recurring meeting patterns with conflict resolution

2. Filter by room detail and designate favourite rooms

3. Order key services like A/V and catering within Outlook

4. View images, customisable features, and attributes for each room

5. Gather key metrics and utilisation data

EMS by the Numbers

The reported **improvement in communication** seen by surveyed customers using EMS as their meeting and room scheduling solution.

The **number of minutes wasted** per day per employee due to double bookings created by multiple Outlook calendars and manual processes.

The percentage of customers surveyed who reported that EMS has helped them **create a more positive meeting experience** for prospects, partners and customers.

The percentage of surveyed customers that **gained insight into their organisation's space utilisation** by implementing EMS

The percentage of surveyed customers that **reduced their overall costs** and space utilisation per employee with EMS.
