

# NAVIGATING THE NEW WORKPLACE DYNAMICS

25 billion work hours are lost annually due to poor collaboration within Fortune 500 companies.

## WHAT’S DRIVING THE WORKPLACE EVOLUTION?

of employers struggle to trust remote teams

of employers use attendance metrics, often with negative results

of employees trust their companies

## TRUST & FLEXIBILITY YIELDS BETTER RESULTS

When not faced with mandates and monitoring tools, employees tend to go into the office more, and employees who feel they are trusted are twice as productive.

*Employees given flexibility are 14 times less likely to “quiet quit” and 3 times more likely to want to stay and perform well.*

# \$8.9 TRILLION

Low employee engagement alone costs the global economy an average of \$8.9 trillion

## LEVERAGE TECHNOLOGY TO OPTIMIZE EMPLOYEE EXPERIENCES AND DECREASE EMPLOYER COSTS

Using the right IWMS solutions, organizations can gain real-time insights into how space is used and make data-driven optimization decisions.
