

PREVENTIVE VS. REACTIVE MAINTENANCE

See how implementing a preventive maintenance strategy can help your organization.

Reactive Maintenance

→ by the Numbers

How much more expensive it is to use a Reactive Maintenance approach than a Preventive Maintenance Strategy.

8x

\$50B

The annual amount of money in the Manufacturing Industry that is lost due to unplanned downtime.

The percentage of unscheduled downtime caused by aging equipment.

44%

80%

The estimated percentage of industrial facilities that are unable to accurately report their total downtime cost (TDC).

5 Advantages of a Preventive Maintenance Strategy

1. Reduced Downtime

2. Improved Safety

3. Increased Labor Efficiency

4. Extended Equipment Life

5. Lower Maintenance Costs
